

MUHAMMAD ABUZAR ALI

MERN Stack Developer

📞 0312-4037579 @ abuzar03034698819@gmail.com 🌐 github.io/AbuzarAli112
📍 Lahore, Pakistan

SUMMARY

Detail-oriented and passionate Full-Stack Developer with extensive experience in building dynamic and responsive web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Proficient in both frontend and backend development, with a strong focus on creating scalable, efficient, and user-friendly solutions. Experienced in implementing RESTful APIs, state management with Redux, and integrating third-party services. Adept at solving complex problems, optimizing performance, and ensuring seamless user experiences across various platforms. Strong knowledge of software development best practices, version control with Git, and Agile methodologies. Looking to contribute my skills and grow within a challenging development environment.

PROFESSIONAL EXPERIENCE

Full Stack Developer-trainee 2024 - September
NAVTech Lahore, Pakistan

- Developed and maintained dynamic web applications using the **MERN stack**
- Designed and implemented **RESTful APIs**, integrated third-party services, and optimized backend processes to improve user experience and system efficiency
- Utilized **Redux** for state management in React applications, optimizing UI updates and enhancing application performance
- Implemented **Jaision Web Token authentication** and **role-based access control (RBAC)** to ensure secure user authentication and authorization.

Projects

Ecommerce Store

- Developed a comprehensive e-commerce web app using React and Tailwind CSS.
- Features include user authentication, shopping cart, profile management, and payment integration.

EDUCATION

Bachelor Of Computer Science 2020 - 2024
Superior University Lahore Lahore, Pakistan

Intermediate 2018 - 2020
The Superior Group of Colleges Lahore, Pakistan

Matric 2016 - 2017
Unique Group of Institution School Lahore, Pakistan

KEY ACHIEVEMENTS

Built Full-Stack MERN Applications

Developed and deployed scalable, responsive web applications using MongoDB, Express.js, React, and Node.js, delivering seamless user experiences.

API Integration & Payment Systems

Integrated third-party APIs and payment gateways like Stripe to enhance application functionality and streamline transactions.

State Management with Redux

Leveraged Redux for efficient state management in React applications, ensuring performance optimization and smooth user interactions.

Optimized Backend Performance

Improved MongoDB query performance and implemented JWT authentication and role-based access control, ensuring secure and fast data processing

SKILLS

Tools

JavaScript · React · NodeJs · MongoDB ·
C++ · MySQL

Operating Systems

Linux · Windows

STRENGTHS

★ MERN Stack Expertise

Completed a comprehensive MERN Full Stack Trainee program from Navtcc, gaining in-depth knowledge and hands-on experience in building full-stack applications using MongoDB, Express.js, React, and Node.js.
